Camp allows for college coaches to come and work with the team and help improve their technical skills and develop their tactical understanding of the game.

- Players will be introduced to the training methods used by Missouri S&T college soccer coach Joe McCauley.
- They will receive up to 15 hours of practical instruction (5 Day Camp) and will be exposed to college level training by college coaches.
- This camp will be Republic players only. It is used to help build the team as a team. I strongly encourage that if someone is interested in playing soccer for me at the high school level they attend this camp. For any questions, you may contact me (Kevin Hauck) at 573-263-3156 or email at kevin.hauck@republicschools.org
